

We would like your videos and photos!

If you would be so kind we would like all your videos and photos of our special day. We are using VidSnap to collect these.

Please scan the QR code with your phones camera or a QR code reader app or enter the unique event web address below. Then enter your name and email address on the web page. On registering you will be sent a link to simply upload your videos and photos of our day. A reminder will also be sent a day after the event.

The process is very simple and VidSnap will delete your details after the upload deadline.

We will then edit the video and photos for a 'guests-eye-view' of the day so please don't hold back from taking videos and photos and also sending us your video messages!

For 5 simple tips on how to take better video with your smart phone please go to:
